Get Connected for Free

The Junction Neighbourhood Centre now has a Broadband for Seniors Internet Kiosk. The kiosk features two computers with broadband access for use by older members of our community. Broadband for Seniors is part of a \$15m Govt. initiative to increase the skills of older Aussies using computers and internet.

The new internet kiosk offers the opportunity for older people to discover how the web can play a great part in helping them to stay in touch with family and friends, along with offering access to the wealth of information available online.

Broadband for Seniors is managed by Adult Learning Australia with funding from FaCHSIA. Computer equipment and broadband is provided by NEC Australia. The Australian Senior's Computer Clubs Assoc. and the University of the 3rd Age Online develop training materials including online lessons.
